Abolish The Federal Reserve

America's founding Fathers wrote that "If money is wanted by Rulers who have in any manner oppressed the People, they may retain it until their grievances are redressed, and thus peaceably procure relief, without trusting to despised petitions or disturbing the public tranquility." — Journals of the Continental Congress, 1:105-113

So how is it that now the Federal Reserve, which is not even a federal government agency but a privately owned Central Bank that charges interest to USA on money that it loans for government expenses, and the I.R.S. steal the wealth of People and raid our homes and bank accounts with impunity?

These government officials either must show us the law that compels us to file 1040 tax forms and pay the tax they claim we are liable for, or quit their jobs as enforcers of fairytale taxes. It's only going to get worse for these officials, because we American Citizens insist on our Constitutional guarantees of freedom and liberty and due process.

I think most these officials erroneously believe just like their Commander in Chief Bush does, that the Constitution is just a "God damn piece of paper". Few in Congress are anything but pure socialists promoting a New World Order and the destruction of the Republic established by our Forefathers, the United States of America. There is one good man who is a patriot: Ron Paul. I think Molokai Citizens who value freedom, liberty, God given unalienable rights, personal sovereignty governing in republican form will support Ron Paul's ideas, and maybe tell Dan Inouye, Akaka, Hirono, Abercromb.

Lets hear what U.S. Rep. Ron Paul has to say.

Mr. Speaker, I rise to introduce legislation to restore financial stability to America's economy by abolishing the Federal Reserve. I also ask unanimous consent to insert the attached article by Lew Rockwell, president of the Ludwig Von Mises Institute, which explains the benefits of abolishing the Fed and restoring the gold standard, into the record.

Since the creation of the Federal Reserve, middle and working-class Americans have been victimized by a boom-and-bust monetary policy. In addition, most Americans have suffered a steadily eroding purchasing power because of the Federal Reserve's inflationary policies. This represents a real, if hidden, tax imposed on the American people.

From the Great Depression, to the stagflation of the seventies, to the burst of the dotcom bubble last year, every economic downturn suffered by the country over the last 80 years can be traced to Federal Reserve policy. The Fed has followed a consistent policy of flooding the economy with easy money, leading to a misallocation of resources and an artificial "boom" followed by a recession or depression when the Fed-created bubble bursts.

With a stable currency, American exporters will no longer be held hostage to an erratic monetary policy. Stabilizing the currency will also give Americans new incentives to save as they will no longer have to fear inflation eroding their savings. Those members concerned about increasing America's exports or the low rate of savings should be enthusiastic supporters of this legislation.

Though the Federal Reserve policy harms the average American, it benefits those in a position to take advantage of the cycles in monetary policy. The main beneficiaries are those who receive access to artificially inflated money and/or credit before the inflationary effects of the policy impact the entire economy. Federal Reserve policies also benefit big spending politicians who use the inflated currency created by the Fed to hide the true costs of the welfare-warfare state. It is time for Congress to put the interests of the American people ahead of the special interests and their own appetite for big government.

Abolishing the Federal Reserve will allow Congress to reassert its constitutional authority over monetary policy. The United States Constitution grants to Congress the authority to coin money and regulate the value of the currency. The Constitution does not give Congress the authority to delegate control over monetary policy to a central bank.

Furthermore, the Constitution certainly does not empower the federal government to erode the American standard of living via an inflationary monetary policy.

In fact, Congress' constitutional mandate regarding monetary policy should only permit currency backed by stable commodities such as silver and gold to be used as legal tender. Therefore, abolishing the Federal Reserve and returning to a constitutional system will enable America to return to the type of monetary system envisioned by our nation's founders: one where the value of money is consistent because it is tied to a commodity such as gold. Such a monetary system is the basis of a true free-market economy.

In conclusion, Mr. Speaker, I urge my colleagues to stand up for working Americans by putting an end to the manipulation of the money supply which erodes Americans' standard of living, enlarges big government, and enriches well-connected elites, by cosponsoring my legislation to abolish the Federal Reserve.

You Can Protect Freedom: Question Authority!

"Where Rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them."

Miranda v Arizona, (1966)

Judge Exposes COURT System Perversions

"The Tyranny of Tolerance" is a wide-ranging look at the many perversions of the law that have been perpetrated by the judiciary in our society. MOLOKAI, too!

The author, a sitting state judge named Robert H. Dierker, Jr. of the 22nd Judicial District of Missouri, lays out exactly how extensive is the coup d'etat being carried out by the nation's attorney/ judicial class against our Constitution.

Dierker's book even addresses gun rights, see (page 80): "Until the advent of the liberal judicial imperium, the meaning of the Second Amendment admitted of no doubt. The right to keep and bear arms was seen as a natural right, and the reference to the "militia" was no more than a recognition that every able-bodied male citizen of the age of sixteen constituted the reserve armed force of every state." [READ the Book!]

UDC Gun Ban Rules UnConstitutionally Violates Individual Right to own a gun

The D.C. Circuit Court of Appeals ruled that the Second Amendment is an individual right and concluded that the District of Columbia's ban on guns in the home is unconstitutional. According to the majority opinion, "The phrase 'the right of the people'...leads us to conclude that the right in question is individual." Also, earlier this week, Second Amendment supporters on Capitol Hill introduced H.R. 1399 -- the "District of Columbia Personal Protection Act."

This just might be some of the most impressive constitutional gun rights news since the United States, under then Attorney General John Ashcroft, took the position that the Second Amendment is an fundamental individual right as opposed to the collective rights theory.

The 75 page ruling can be found here:

<http://pacer.cadc.uscourts.gov/docs/common/opinions/200703/04-7041a.pdf>

To summarize, we conclude that the Second Amendment protects an individual right to keep and bear arms. That right existed prior to the formation of the new government under the Constitution and was premised on the private use of arms for activities such as hunting and self-defense, the latter being understood as resistance to either private lawlessness or the depredations of a tyrannical government (or a threat from abroad). In addition, the right to keep and bear arms had the important and salutary civic purpose of helping to preserve the citizen militia. The civic purpose was also a political expedient for the Federalists in the First Congress as it served, in part, to placate their Antifederalist opponents. The individual right facilitated militia service by ensuring that citizens would not be barred from keeping the arms they would need when called forth for militia duty. Despite the importance of the Second Amendment's civic purpose, however, the activities it protects are not limited to militia service, nor is an individual's enjoyment of the right contingent upon his or her continued or intermittent enrollment in the militia.

As we have seen in many other constitutional cases, including decisions by the Ohio Supreme Court, the judges found that DC's gun laws amount to a complete prohibition on the lawful use of handguns for self-defense: The majority opinion also rejects the argument that the Second Amendment does not apply to the District of Columbia because it is not a State. And the majority opinion concludes, "Section 7-2507.02, like the bar on carrying a pistol within the home, amounts to a complete prohibition on the lawful use of handguns for self-defense. As such, we hold it unconstitutional."

Quest and Medicaid Income Limits Raised

More Children and Youth Eligible for Free or Low-Cost Health Insurance
A family of four can now earn up to \$59,400 annually and their children may qualify for the state's free QUEST and Medicaid programs. In addition, there is a new low-cost option for a family of four whose income exceeds the limit for free health insurance, but is below \$71,280 per year.

Many middle-income families don't think their children qualify because they mistakenly assume they must be on welfare, explained Barbara Luksch, Hawaii Covering Kids project director. "We need to reach these people and let them know help is available. We owe it to every child who is eligible for public health insurance to get them enrolled."

Children's eligibility is based on household size, income, and citizenship or immigration status and a simplified application makes it easy to sign up.

More information and application forms for QUEST and Medicaid are available at www.coveringkids.com. Parents and guardians can also call 211 (free from all islands) to talk with a live operator who can mail the application as well as link each family to an outreach worker for assistance.

"We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God." — James Madison

Bill of Rights 2nd Amendment:

"A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

Wake up militia! Use it , or lose it ! Got your gun, yet?

"...with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, or fortunes and our sacred honor." (Decl. of Indep.)

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

Lost Freedoms to Police state!

America is being arrested, one by one, day by day. One day it will be you, or someone you love, or a good friend. The POLICE STATE is here, and it crept up on you like the dead of night, while you slept right through it. You thought it was only in Washington DC or perhaps New York City, Los Angeles, Denver, or Chicago. Well folks it is in Arkansas, Arizona, Delaware, Florida, Ohio, Texas and everywhere else in the former republic that was once considered free with liberty, many moons ago. Now we just have the POLICE STATE and the future looks dismal for all. "Unless", we stand up to it and fight it, with our every breath.

Rick Stanley

2nd Am Freedoms Somewhat Protected ?

President Bush signed into law a measure to prohibit the confiscation of firearms from law-abiding citizens during states of emergency.

Called the Disaster Recovery Personal Protection Act, prohibits any agency using federal disaster relief funds from seizing firearms from law-abiding citizens during emergencies such as last years Hurricane Katrina when the Mayor and police chief said that all firearms would be confiscated and only police would be armed, then raided homes with guns drawn and forced people to give up their guns that they needed to defend themselves from roving gangs of thugs in the stricken neighborhoods of N.O.

The Citizens Committee for the Right to Keep and Bear Arms [CCRKBA] officials hailed the new protection for lawful gun owners, and the 2nd Amendment. They also expressed hope that Congress would pass legislation that would allow any person with a valid permit to carry a concealed firearm issued by a state to carry it into any other state. HR 4547, introduced by Rep Sterns with 85 cosponsors, and S.3275 by Sen. George Allen with 21 cosponsors would require states to honor each other's CC permits and licenses, but would not create a federal licensing system. Hmm, sounds good.

NAZI-fication of USA

H.R. 1. When fully implemented, the new law will create a federal police leviathan that will place the American people into a giant prison. It is the very first bill passed by the House of Representatives this year, ostensibly for the purpose of making the United States more secure against future terrorist attack. The House of Representatives easily passed it. The vote was 299 Ayes, with 68 Republicans voting with the majority, and 128 Noes. The Senate is expected to do the same, and President Bush will sign it.

As many have already observed, a close analysis of the 9/11 report reveals the creation of Homeland Security identity checkpoints on America's roads and highways. Mandatory biometric iris and finger scanning systems at all American airports and sea-ports. The creation of a national I.D. card. The expansion of "no-fly" and "watch" lists. The implementation of special screening for all airline passengers. The federal takeover of publicly owned communications networks and increased government surveillance of Americans' financial records and activities. H.R. 1 simply continues the dangerous, unConstitutional Police State policies of both Democrat and Republican administrations for Nazi-fication of the Hawaii, USA.

George W. Bush and the Democrats in Congress are pushing hard and fast to implement it. And unless the American people offer the strongest resistance quickly and loudly, our children will find the cage locked shut with no chance of escape.

The American people need to heed the warning of Winston Churchill who said, "If you will not fight for the right when you can easily win without bloodshed, if you will not fight when your victory will be sure and not so costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance for survival. There may be a worse case. You may have to fight when there is no chance of victory, because it is better to perish than to live as slaves."

Wake Up HAWAII !

Your Citizen's POLICE POWERS under the authority of the Constitution for the united States of America is NOT given over to legislators, executive or judges.

That these professional politicians have taken divinity upon themselves is as obvious as it is repulsive. This was not our government at the signing of the Unanimous Declaration and it is not our government now. The Constitution for the United States is our GOVERNMENT©, the United States of America is our REPUBLIC and we are its CITIZENS

Enforce the Bill of Rights !

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights!

Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man. **Wake up !
