Obama’s Private Army hides inside ObamaCARE

ObamaCare hides his new Private Army?
Barack Obama plans to increase the cost of health care coverage to active duty and retired military personnel following the November 2012 election, eventually leading to an increase in cost to them of 345%. Also, Obama has authorized those massive charges to military personnel to be deducted from their pay, while giving government union employees a complete pass, with no charges to his government employees for their health care coverage.

By forcing military personnel to pay for the new dramatically increased cost of coverage for medical benefits under ObamaCARE, when civilians in government will not face increases in their cost of medical coverage is unconscionable. It should be the other way around; military personnel wounded in combat should not be required to pay for their own medical coverage out of their pay, but civilian union employees should be required to pay for their medical coverage. In the future, when potential military recruits realize that their pay will be substantially reduced and they will have to apply for civil service positions where there are no costs for medical coverage.

This latest unabated assault on the US Military by the Obama Regime will open the way for Obama to recruit his new National Security Force Private Army. The portion of the Obama Health Care Bill that references the creation of a new National Security Force, the “regular corps and ready reserve corps”, what some have called “Obama’s Private Army”, has nothing whatsoever to do with the creation of a new National Security Force, the “regular corps and ready reserve corps”, what some have called “Obama’s Private Army”, has nothing whatsoever to do with the new National Security Force. There seems to be an unpublished National Security objective to achieve the National Security objectives we’ve set.” [450-Million rounds .40 ?]

After it was passed, in order to see what was in it!!! This “Private Army” would be the fulfillment of Senator Obama’s campaign promise made on July 2, 2008, when then Senator Obama said: “We cannot continue to rely only on our military. We must apply for civil service positions where there are no costs for medical coverage. Obama has authorized those massive charges to military personnel to be deducted from their pay, while giving government union employees a complete pass, with no charges to his government employees for their health care coverage.

When potential military recruits realize that their pay will be substantially reduced and they will have to apply for civil service positions where there are no costs for medical coverage.

Obama’s private military development is now underway via ObamaCARE.

US Supreme Court Justices Attack Obamacare Mandate In SCOTUS Hearing

Demonstrators want Obama sent home to Chicago [not Hawaii]

This week marked the beginning of the fight against ObamaCare as the Supreme Court heard arguments from both the Obama Administration and groups opposed to government-run healthcare. Make no mistake: this decision by the Supreme Court will be a defining moment in American history.

Supreme Court justices pounced on the central issue of Obamacare Tuesday, asking pointed questions about whether the government was overreaching with a mandate forcing all Americans to buy health insurance.

Virginia Attorney General Ken Cuccinelli and former GOP presidential contender Herman Cain were two keynote speakers who addressed the Repeal rally organized by Jenny Beth Martin of the Tea Party Patriots last weekend.

Martin held up Obama’s massive health-care law and announced, “ObamaCare is cancer in our government, and we are going to rip it out, repeal it.” A crowd of patriots prayed that ObamaCARE will be struck down in the U.S. Supreme Court and fully repealed by Congress.

All speakers noted that repeal depends on a new Senator from Hawaii and a Constitutional natural born patriot president like Ron Paul.

“Now, you know, yesterday was the second anniversary of [ObamaCARE]. That’s the bad news,” said Cuccinelli. “The good news is yesterday was the 237th anniversary of Patrick Henry’s ‘Give me liberty or give me death’ speech... And two years ago yesterday, we filed the first lawsuit by any state that got the individual mandate declared unconstitutional... the battle for the principles that are at stake in this case will go on this year and perhaps next year.”

“I think I can make the case that you will never live through a more important election.”

Cuccinelli added that Obama and his administration are the “biggest set of law breakers” in American history.

Several speakers called for Justice Elena Kagan, who worked on ObamaCARE before she was appointed by Obama to Supreme Court of Appeals, to recuse herself for conflict of interest. She knows the law, but she refuses, thus violating the law. Title 28, Chapter 45SB of the United States Code, requires the recusal where a judge or justice has served in governmental employment and such capacity or participated as counsel.

The United States is not supposed to be a government that forces Americans to buy just about anything else it feels might improve health or lower costs, promote socialism. Americans, a new poll suggests, overwhelmingly are against the individual mandate. Even among key Democratic groups, discontent over ObamaCare was high: the majority of nonwhite adults, about three-fifths of young people, and two-thirds of college-educated white women opposed in opposition to the plan.

At the SCOTUS hearing Justice Anthony Kennedy, asked whether the mandate would allow the government to make citizens buy other products, certain foods... a step beyond what our cases allow? Such sharp questioning by the Supreme Court's conservative justices has cast serious doubt on the survival of the individual insurance requirement, which is at the heart of ObamaCARE socialism.

Justices Antonin Scalia and Samuel Alito appeared likely to join Clarence Thomas to vote to strike down the individual mandate.

Four Democratic appointees Ruth Bader Ginsburg, Stephen Breyer, Sonia Sotomayor and Kagan, are expected to vote to uphold it.

Critics of ObamaCare argue that the mandate opens the door to the government forcing Americans to buy just about anything else it feels might improve health or lower costs, promote socialism. Americans, a new poll suggests, overwhelmingly are against the individual mandate. Even among key Democratic groups, discontent over ObamaCare was high: the majority of nonwhite adults, about three-fifths of young people, and two-thirds of college-educated white women opposed in opposition to the plan.

The nine justices, five Republicans and four by Democrats, plan to hear about six hours of testimony over three days. They are expected to rule by late June.

“The federal government is not supposed to be a government that has all power,” Justice Antonin Scalia said. “It’s supposed to be a government of limited powers.” [AMEN! Kill ObamaCARE!]

Molokai Advertiser-News

Volume 27 Number 13 The Militia of Molokai’s Community Newspaper—Every Wednesday March 28, 2012
Sheriff Joe Warns: 'Tons' more shocking info on Obama vs. 'biggest censorship blackout in history of the United States'

WND - "America's toughest sheriff" says there is "tons" more potentially shocking information on Barack Obama in connection with his probe into the president's eligibility, and he calls the media's suppression of his findings of a likely forgeried presidential birth certificate and Selective Service Card "probably the biggest censorship blackout in the history of the United States."

"I'm not going after the president to keep him off a ballot or anything else, but just to expose the forger," Arizona Sheriff Joe Arpaio said. "I'm going at it stricly as a law-enforcement guy investigating a possible forgery and fraud. I'm sticking with that, but I'll tell you one thing. We got tons of other information that could be very shocking, too, but I'm sticking now with just the [forgey] investigation and possible criminal violations."

The lawmaker from Maricopa County made the comments March 16 on a national radio show hosted by Roger Hedgecock. (Scroll down for video.)

As WND reported March 1, Arpaio and his Cold Case Posse announced there is probable forgerying the documents released by the White House last April purported to be Obama's original, long-form birth certificate and Selective Service registration card are actually forgeries.

Stressed on the radio show his original intent with the posse was to put to rest all the claims suggesting Obama was not meeting the constitutional requirements to hold the presidency.

"I told these guys, 'I want you to do a good job. I hope we clear the president,'" he explained. "I said give me the microfiche in Hawaii to show that he was born in that hospital. Give us the microfiche. I said that six months ago. And if we can clear everything up. But as we went into it with an open mind, we're now coming to a conclusion that we may have some forged documents revolving around this situation."

When asked about making an arrest, Arpaio said, "We're trying to identify any alleged forger. We haven't done that yet. … I'm not blaming the president, but if they're forgeries, someone has to be responsible for doing that."

The sheriff also said that on Friday, he made a decision about where to send Obama's Selective Service Card in order to have that agency "help us or do an independent investigation."

"We have nothing to hide. We're bringing it to their attention, and see what happens," Arpaio said. "My problem is, there's a lot of conflicts out here to get to the bottom of this thing. To look at this. (Regarding the media) … this is probably the biggest censorship blackout in the history of the United States. When I go to the toilet, I make it in national news. … I just can't believe the media, including the cable media blocking this thing out."

And if his staff was able to replicate the alleged forgery by obtaining a circa 1980 pica stamp and a circa "2008″ date stamp – that he was a foreign student, "I am only telling you what I distinctly remember her saying to me when I was a law professor in Chicago, interviewed the retired mail carrier in 2009 but paid $18,000 to do the interview and the story turned out to be a forgery," Hulton said.  

Because of inconsistencies on the form itself – including an unusually incomplete date stamp – sheriff's investigators suspect the form, which was allegedly filled out at the White House if he can get up to the chief of staff to ask some advice, and then what are they gonna do? Give it to the attorney general? I don't know. … So I'm fighting big battles here."

Arpaio added a note about the issue of Obama's possibly forged Selective Service Card. "We had a press conference. A lot of people came. They were snickering, trying to embarrass me, [saying] this is a pony show trying to get publicity," he said. "However, when we showed the Selective Service Card on the screen, you could have heard a pin drop."

WND Editor and CEO Joseph Farah wrote in his daily column that the "most well-read news story anywhere" was "deliberately spiked" by establishment media. Major talk-radio, he noted, also was tipped off on the story ahead of time and didn't touch it.

But with placement on the Drudge Report, "millions got the first-person, eyewitness evidence video that Barack Obama was financially supported through Harvard by the family of domestic terrorist Bill Ayers back in the late 1980s."

As WND reported, retired U.S. Postal Service carrier Allen Hulton has claimed in a sworn affidavit that Mary Ayers, and Barack Obama himself, told him the Ayers family helped finance Obama's education. Hulton testified further that Mary Ayers believed Obama was a foreign student. Hulton said that in an encounter with Obama in front of the Ayers home, Obama declared that he would someday be president.

Hulton gave the sworn affidavit to investigators Maricopa County, Ariz., Sheriff Joe Arpaio commissioned to determine whether Obama is eligible for Arizona's 2012 election ballot. Citing Arpaio's investigation, a Florida congressmen today said he's not convinced Obama is eligible for the White House.

Author Jack Cashill addressed the Hulton story in a column for the American Thinker. Cashill said he had come across Hulton's story when Steven Diamond, a law professor in Chicago, interviewed the retired mail carrier in 2009 but paid $18,000 to do the interview and the story turned out to be a forgery.

Cashill noted that in the interview, Cons warned Hulton that by quoting Mary Ayers as saying that Obama was a "foreign student," he was putting himself at some risk. "I am only telling you what I distinctly remember her saying – that he was a foreign student," Hulton said.

While Bill Ayers and Obama have acknowledged meeting in 1995, WND's Aaron Klein has reported that the relationship goes back to at least 1988, when Bill's father Thomas Ayers included Obama in an education advocacy association called the Alliance for Better Chicago Schools, or the ABC's Coalition.

The contact for the ABC's Coalition was convicted domestic terrorists Bill Ayers, who at the time was a professor at the University of Illinois at Chicago. Obama began school at Harvard Law School in the fall of 1988.

The Postman reports Ayers family put 'foreigner' Obama through school. Barack H. Obama, II, said many times during and after campaign that Bill Ayers was just a guy living down the street, he did not really know him. LIAR!

The TRUTH is closing in and putting the heat on Obama The Fraud in Chief.

WND's report - featuring video of a retired Illinois postman who claims former terrorist Bill Ayers' parents told him they were financially supporting "foreign student" Barack Obama through Harvard – is one of the hottest, most-read news stories in the world.

The establishment media, meanwhile, have completely ignored the story, and when news-agenda-setter Matt Drudge posted it on his Drudge Report, liberal sites such as Media Matters and the Democratic Underground quickly unleashed scorn on Drudge.  

WND Editor and CEO Joseph Farah wrote in his daily column that the "most well-read news story anywhere" was "deliberately spiked" by establishment media. Major talk-radio, he noted, also was tipped off on the story ahead of time and didn't touch it.

But with placement on the Drudge Report, "millions got the first-person, eyewitness evidence video that Barack Obama was financially supported through Harvard by the family of domestic terrorist Bill Ayers back in the late 1980s."

As WND reported, retired U.S. Postal Service carrier Allen Hulton has claimed in a sworn affidavit that Mary Ayers, and Barack Obama himself, told him the Ayers family helped finance Obama's education. Hulton testified further that Mary Ayers believed Obama was a foreign student. The contact for the ABC's Coalition was convicted domestic terrorists Bill Ayers, who at the time was a professor at the University of Illinois at Chicago. Obama began school at Harvard Law School in the fall of 1988.
Judge Rules on Right to Carry

Judge Benson Legg of the United States District Court for the District of Maryland decided that Maryland's handgun regulation by committee violated the Second Amendment to the United States Constitution. This well-reasoned decision stands as important precedent against the exercise of arbitrary will by state authorities who wish to deprive citizens of their right to carry handguns outside the home for purposes of self-defense. In an age of increasing lawlessness and less than adequate police protection, this decision helps shift the balance in favor of those who wish to bear arms to reasserting the primacy of the Founding Fathers' concept.

Maryland law permitted a Handgun Permit Review Board to refuse a gun permit to anyone the board believed failed to demonstrate “good and substantial reason” for having a handgun. The plaintiff, Raymond Woolard, lived on a farm in rural Baltimore County, and was denied renewal of his permit.

Judge Legg found it in facsimile violation of the Second Amendment because, on its face, it gave licensing officials virtually unbridled discretion. “Maryland's goal of 'minimizing the proliferation of handguns among those who do not have a demonstrated need for them,' is not a permissible method of preventing crime or ensuring public safety; it banishes the right too broadly.”

In an important part of the decision, Judge Legg interpreted the term “bear” in the Second Amendment (“A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed”). He reasoned that the term “bear” plainly implies a right to possess arms outside the home. Quoting from the Supreme Court's decision in District of Columbia v. Heller, he explained that the meaning of the term “bear” is to “wear, bear, or carry. . . upon the person or in the clothing or in a pocket, for the purpose of protection, of being armed and ready for offensive or defensive action in a case of conflict with another person.” There is in this meaning no restriction that would limit exercise of the right to the home.

There are times when the rule of law and reason afford no defense. At those times, might determines the outcome. There is always a need for self-defense. The right to bear arms is a right to life and derives its legitimacy from the unalienable natural right of self-defense which no just government can deprive its people.

And so is every American Citizen. Hawaii gun laws Place to Keep, and prohibited concealed carry and open carry of gun Chapter 134 HRS is ultra vires!

No Free Man shall ever be debarred the use of arms—Thomas Jefferson

Guns Rights Refresher

1. An armed man is a citizen. An unarmed man is a subject.
2. A gun in the hand is better than a cop on the phone.
3. If guns cause crime, then pencils cause misspelled words.
4. “Free” men do not ask permission to bear arms.
5. If you don't know your rights you don't have any.
6. Those who trade liberty for security have neither.
7. What part of “shall not be infringed” do you not understand?
8. The Second Amendment is to enforce the other 9 Amendments.
9. 64,999,987 firearms owners killed no one yesterday.
10. Guns only have two enemies; rust and politicians.
11. Know guns, know peace, know safety.
12. No guns, no peace, no safety.
13. You don’t shoot to kill; you shoot to stay alive.
15. Assault is a behavior, not a gun device.
16. Criminals love gun control— it makes their jobs safer.
17. If guns cause crime, then matches cause arson.
18. Only a government that is afraid of citizens prohibits guns.
19. You only have the rights you are willing to fight for.
20. Remove the people's right to bear arms, you create slaves.
21. The American Revolution was about gun control.

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the American citizens.

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights! Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do people have the power to do this? Yes, the people have the power to do everything the politicians promise, and more. Any and all enemis (forb)ay the power of the State, the right of the people to keep and bear arms, shall not be infringed.

Use it or lose it!
Molokai High School News

Molokai High School WASC Accreditation Visit

Molokai High School is accredited by the Western Association of Schools & Colleges. All accredited high schools conduct an in-depth self-study periodically to examine overall progress accomplished since the last self study and the effectiveness of its current programs based on the WASC criteria in relation to student achievement. Molokai High has prepared its self-study and will be visited by a committee on April 16-19, 2012. The visiting committee will prepare a report based on the self-study and analysis of their visit. The report will highlight the school’s programs including strengths and critical need areas if warranted. MHS is preparing to receive the visiting committee and exhibit our many accomplishments. Please attend our “Student Achievement” Obama Night on April 17 at 6:00 p.m. where we will showcase some our exciting programs. Light refreshments and door prizes will be provided.

Molokai High School Senior Inquiry Project Deadlines

Senior Inquiry Project: For Juniors: Your culminating Service Action Plan is due for approval and comment by Friday, April 13, 2012.

Molokai High School Hana Hou Tuesday & Thursday

We’ve added Thursday!!!

Every Tuesday & Thursday Molokai High and Middle Schools’ library is open to the public from 2:00 to 8:00 p.m. as part of the 21st Century “Connecting Molokai M’s” grant. Students and families have access to books, databases, computers, i-pads, e-books, tutors, and refreshments are available to all participants.

Scheduled activities are:

- Math Support 2-3:30 p.m.
- Senior Project Support 2-8 p.m. on 4/10, 5/1
- College/Scholarship Support 2-4 p.m. on 4/10, 4/17

Molokai High School Community Council

The Molokai High School Community Council will be meeting on Wednesday, April 18, 2012 at 3:30 pm in the Molokai High School Library. Public is welcome to attend. Please call Diane Mokuau at 567-6950 regarding any questions you may have.

Aloha Parents and Guardians of freshmen Class of 2015!

If you are willing to be part of a booster group for the Class of ’15, please notify Nancy Lawrence, our head advisor (nancy.lawrence@notes.k12.hi.us or 567-6950, ext. 278) with your name, telephone number and email address. We need volunteers to donate snacks and/or to help plan and decorate for class activities as we progress through our years at MHS.

Molokai High School Drivers Education

We’ve added Thursday!!!! Please check out the website http://molokaihigh.weebly.com/23-feb-2012-up-date.html for information regarding driver’s education. This web page will provide up to date announcements as well as prerequisites students need to complete.

Molokai High Athletics

Molokai High School is looking for qualified coaches

MOLKS CROSS COUNTRY

FOOTBALL

If you are interested contact Mrs. Carrie Kimball, Athletic Director at 567-6959 or 336-0209. Applications can be picked up in the Athletic Directors office or in the main office. Application deadline is March 30, 2012

Your Company is in good company with The M.A.N.

Pilot Says No Airplanes Hit WTC Towers 9/11/01

Excepts Affidavit By John Lear, Son Of Learjet Inventor

No Boeing 767 airliners hit the Twin Towers as fraudulent allegations by the government, media, NIST and its contractors. Such crashes did not occur because they are physically impossible as depicted for the following reasons:

A. In the case ofUAL 175 going into the south tower, a real Boeing 767 would have begun ‘telescoping’ when the nose hit the 14 inch steel box columns which are 39 inches on center. The vertical and horizontal tail would have instantaneously stopped forward and to the side from the impact of hitting the steel box columns, which would not have fallen to the ground.

B. The engines when impacting the steel columns would have maintained their general shape and either fallen to the ground or been recovered in the debris of the collapsed building. One alleged engine part was found on Murray Street but there should be three other engine cores weighing over 9000 pounds each. Normal operating temperatures for these engines are 650°C so they could not possibly have burned up.

C. When and if the nose of an airplane came in contact with the buildings 14 inch by 14 inch steel box columns and then, 37 feet beyond, the steel box columns of the building core the momentum of the wings would have slowed drastically depriving them of the energy to penetrate the exterior steel box columns. The span of the wing, which extend outward, could not possibly have penetrated the 14 inch by 14 inch steel box columns placed 39 inches on center and would have crashed to the ground.

D. The argument that the energy of the ruses of the Boeing 767 at a speed of 540 mph fails because:

a. No Boeing 767 could attain that speed at 1000 feet above sea level because of parasite drag which doubles with velocity and parasite power which cubes with velocity.

b. The fan portion of the engine is not designed to accept the volume of dense air at that altitude and speed.

c. The piece of alleged external fuselage containing 3 or 4 window cutouts is incorrect with respect to the Boeing 767 that hit 14 inch steel box columns, placed 39 inches on center, at over 500 mph. This fuselage section would be telescopically crumpled had it actually penetrated the building as depicted in the CNN video. It is impossible for it to have then re-emerged from the building and then fallen intact and unburned as depicted.

F. The Punkve video fails because no significant part of the Boeing 767 or engine thereon could have penetrated the 14 inch steel columns and 37 feet beyond the massive core of the tower without part of it falling to the ground. The Punkve video misrepresents the construction of the core of the building and depicts unidentified portions of the airplane, snapping the core columns which were 12“x36”.

The Punkve video also misrepresents what would happen to the tail when the alleged fuselage contacted the core. The tail would instantaneously separate from the empennage (fuselage).

My analysis of the alleged cutout made by the Boeing 767 shows that many of the 14-inch exterior steel box columns which are shown as severed horizontally, do not match up with the position of the wings. Further, several of the columns through which the horizontal tail allegedly disappeared are not severed or broken.

In addition, the wing tips of the Boeing 767 being of less robust construction than the inner portions of the wings could not possibly have made the cookie-cutter pattern as shown in the aftermath photos. The wing tips would have been stopped by the 14 inch steel box columns and fallen to the ground.

The debris of the Boeing 767, as found after the collapse, was not consistent with visual debris that had really been a crash. Massive forgings, spars from both the wing and horizontal and vertical stabilizers, landing gear retracts cylinders, landing gear struts, hydraulic reservoirs and bogeys oxygen bottles, a massive keel beam, bulkhead and the wing box itself could not possibly have ‘evaporated’ or melted away intact. A 40 foot wide building with engines of the dimensions of the sections of the Boeing 767, including 3 engine cores weighing approximately 9000 pounds apiece which could not have been hidden. Yet there is no evidence of any of these massive structural components from either 767 at the WTC. Such complete disappearance of 765 is impossible.

My opinion, based on extensive light experience both as captain and instructor in large and 3 engine aircraft is that it would have been impossible for an alleged hijacker with little or no time in the Boeing 767 to have taken over, then flown a Boeing 767 at high speed, descending to below 1000 feet above sea level and flown a course to impact the twin towers at high speed for these reasons:

That an alleged hijacker could overcome all of these difficulties and hit a 208 foot wide building dead center at the north tower and 23 feet east of dead center at the south tower is simply not possible. At the peak of my proficiency as a pilot I know that I could not have done it on the first pass. And for two alleged hijackers, with limited experience to have hit the twin towers dead center on September 11, 2001 is total fiction. It could not happen.

To propose that a Boeing 767 airliner exceeded its designed limit speed of 360 knots by 127 mph to fly through the air at 540 mph is simply not possible. It is not possible because of the thrust required and it’s not possible because of the engine fan design which precludes accepting the amount of dense air..... At this stage, it cannot properly be used, much less asserted as factual, that wide-body jetliners crashed into the twin Towers of the WTC. Any declaration of such crashes made must be deemed false and fraudulentely asserted, video images notwithstanding.

America’s Forsaken Promise
A Patriot series by Tinsley Grey Sammons

Part XII: Legal Authority vs Commerce Claws
Organic Law vs Declaration of Independence

No Power that Contravenes the Principles that inspired the July 1776 Action of the Second Continental Congress has Lawful Authority. Legal perhaps, but lawless.

EVERYTIME the Usurping Power claims the Organic Law* of the United States of America. It is the right-or-wrong litmus test by which all legal power, i.e., the power to punish, must be measured.

Folks tend to think that when a power is legal, then surely it must be good or at least tolerable . . . but that simply isn’t true. Many of those legal powers are intrinsically criminal employment of the Constitution’s Commerce Clause.

The Commerce Clause as a decay for the paternalistic/prohibitory purposes of the drug laws is a contemporary example of the use of a powerful legal fiction in the service of a popular cause. -Dr. Thomas Szasz, OUR RIGHT TO DRUGS

The clause giving Congress the power to regulate interstate commerce is one of the major clauses in the Constitution. That clause, more than any other, has been used to undermine American liberty.

A most shameful, dangerous, and unpardonable philosophical reversal has taken place in the collective psyche of the American People. Most think, talk, and write, and act as though virtually every human action must have the State’s blessing and permission. This is nonsense since the State can only acknowledge and sanction actions that make no right or wrong differences.

The expression "Plunder by Law" used by Frederic’ Bastiat is as relevant today as it was in 1850 when Bastiat authored his incomparable classic titled: THE LAW.

"America’s Economics Time Bomb." By Tinsley Grey Sammons

This situation presents a serious conflict of interest and naturally would have a corrupt impact on fair grading and academic decision-making.

Additionally, Graham Knopp, a former graduate student at the Institute for Astronomy, stated to me that while he was teaching an astronomy course at the university, he was having sexual relations with one of the students in his course. Others must have similar testimonial evidence and facts.

Here’s a link from the university’s own paper documenting these events:

Regarding the drugs, Graham Knopp stated to me that Josh Barnes, a faculty member at the Institute for Astronomy, exchanged heroin and marijuana with him while the former was a student of the latter.

This sort of criminal misconduct (felony) by a faculty member

would obviously give the appearance if not factual basis to

allege the grading process at the university has corrupt ele

ments.

allege the grading process at the university has corrupt ele

ments.

allege the grading process at the university has corrupt ele

This situation presents a serious conflict of interest and naturally would have a corrupt impact on fair grading and academic decision-making.

Additionally, Graham Knopp, a former graduate student at the Institute for Astronomy, stated to me that while he was teaching an astronomy course at the university, he was having sexual relations with one of the students in his course. Others must have similar testimonial evidence and facts.

Here’s a link from the university’s own paper documenting these events:

Another recent study in the journal Pediatrics showed that anywhere from 30 percent to 50 percent of teens and young adults drink energy drinks. Nearly half of the 5,448 reported caffeine overdoses in 2007 were in people younger than 19. “The known and unknown pharmacology of agents included in such drinks, combined with reports of toxicity, raises concern for potentially serious adverse effects in association with energy drink use,” researchers wrote in that study. “In the short-term, pediatricians need to be aware of the possible effects of energy drinks in vulnerable populations and screen for consumption to educate families.”

OUTRAGE Over Animal Sodomy OK in Obama’s Military

To the Editor,

I am outraged to learn from the February 22 edition of the Molokai Advertiser-News that Obama’s Democrat Majority Senate recently passed legislation making sodomy and sex with animals legal under military law. Obama’s Senate repeals Article 125 of the Uniform Code of Military Justice that states that any person who engages in unnatural carnal copulation with another person of the same or opposite sex or with an animal is guilty of sodomy.

Now, to make sodomy an official part of military life, Obama has condemned the repeal of the ban on bestiality too. Bestiality leads to Brucellosis, Leptospirosis (Weil’s disease), Q fever, Rabies, Flapworm, Echinococcosis (Hydatid disease), Campylobacter, Cryptosporidium, Cystercerosis, Giardia, Salmonella, and Toxocariasis and other life-threatening diseases, not to mention that those who have sex with animals are mentally insane. Google “Medical Consequences of what Homosexuals Do” for shocking medical facts, easily understood because sperm readily penetrate the only one cell thick rectal wall, causing immunologic damage, tearing of the anal wall, where these substances then gain direct access to the blood stream, making the colon a mashing bowl of lacerated membrane, sperm, blood, feces (crap), infection, and disease, unlike heterosexual intercourse where sperm cannot penetrate the multilayered vagina and no feces are present. Where is common sense today when we know that the medical consequence of these actions is death? Maybe God labels these actions an abomination because He loves us and doesn’t want us killing ourselves and others.

Most respectfully,

Erich G. Lukas
Candidate, Republican Committee, April 24, 2012 General Primary Election, PA

Why Is Obama Ordering .40-cal and 5.56-cal Ammo sales now prohibited to Civilians?

Energy Drinks Implicated in Death of 14 year old girl

A 14-year-old girl from Maryland died last December after downs two Monster energy drinks in a 24-hour-period, according to news reports, and the incident is stirring concern over the safety of the beverages for kids. After she drank two of the energy drinks — which together contained 480 milligrams of caffeine — she went into cardiac arrest a day later and died from cardiac arrhythmia due to caffeine toxicity, TODAY reported.

“She was at the mall with her friends the night before, and had a 24-ounce ener

gy drink,” Fournier’s mother, Wendy Crossland, told the Record Herald. “She drank another one less than 24 hours later, even though she knew I did not allow them because I know they are bad for you. She went into cardiac arrest three hours later at home.”

TODAY reported that the amount of caffeine Fournier drank in the two Monster energy drinks is about the same as that found in 14 cans of Coca Cola — and is almost five times the recommended caffeine limit from the American Academy of Pediatrics.

Caffeine is a stimulant, and is found in a multitude of food products, from cof

ffee, to chocolate, to sodas — and the amounts found in those products usually are not enough to cause any harm to health, Medscape noted.

But caffeine poisoning is not uncommon in the U.S.; TODAY reported that cases of caffeine poisoning have increased over the last few years, from 1,128 in 2005 to 13,114 in 2009.

A recent study in the journal Pediatrics showed that anywhere from 30 percent to 50 percent of teens and young adults drink energy drinks. Nearly half of the 5,448 reported caffeine overdoses in 2007 were in people younger than 19. “The known and unknown pharmacology of agents included in such drinks, combined with reports of toxicity, raises concern for potentially serious adverse effects in association with energy drink use,” researchers wrote in that study. “In the short-term, pediatricians need to be aware of the possible effects of energy drinks in vulnerable populations and screen for consumption to educate families.”
